

ISOLPAK® and ISOLCLAD®

Food Contact Compliance Statement

Public Version

Products: ISOLPAK® and ISOLCLAD®

Manufacturer: TTM GmbH, Kiefernainweg 102/A, 39026 Prato allo Stelvio, Italy

Material: Biaxially oriented thermoplastic film

This document is a public summary of the food-contact compliance status of ISOLPAK® and ISOLCLAD®. It does not constitute the complete Declaration of Compliance pursuant to the applicable food-contact legislation.

The complete Declaration of Compliance contains additional regulatory and technical information, including information relating to restricted substances, migration assessment and specific conditions of use.

The complete Declaration of Compliance is available to customers and competent authorities upon request.

A) European Union

TTM GmbH confirms that **ISOLPAK®** and **ISOLCLAD®** have been assessed for their intended food-contact applications and comply with the applicable requirements of Regulation (EC) No 1935/2004, Regulation (EU) No 10/2011, as amended, and Regulation (EC) No 2023/2006, as applicable to the products and intended conditions of use.

Compliance has been assessed by means of appropriate migration testing, calculations and risk assessment.

Under the assessed conditions, **ISOLPAK®** and **ISOLCLAD®** are suitable for direct food contact within the specified conditions of use.

The products may be used for long-term storage at room temperature and below, including refrigerated and frozen storage, subject to the applicable food type, contact conditions and surface-to-volume ratio.

Certain applications, including specific fatty-food applications, elevated-temperature applications and applications outside the standard EU surface-to-volume convention, may require additional assessment of the final article.

Both sides of ISOLPAK® and ISOLCLAD® may be used as the food-contact surface. No functional barrier is required for the assessed applications.

B) United States

ISOLPAK® and ISOLCLAD® are **not approved for direct food contact in the United States.**

Use in applications without direct food contact, or where an appropriate functional barrier separates the material from food, may be possible subject to the specific application.

Customers remain responsible for confirming that the specified conditions of use cover their intended application and that the final article complies with all applicable requirements.

DISCLAIMER

This document is provided for general information purposes only and constitutes a non-binding summary of the food contact compliance status of ISOLPAK® and ISOLCLAD®.

It does not constitute or replace the complete Declaration of Compliance required under applicable food contact legislation and is not intended to create any independent contractual obligation, warranty or guarantee.

Only the complete, current Declaration of Compliance issued by TTM GmbH for the relevant products and supplied to the customer upon request shall be used for regulatory compliance assessment.

The complete Declaration of Compliance contains additional technical and confidential information and is available to customers and competent authorities upon request.
